# INDEX TO VOL. XXX.

ADRENALIN, action on blood pressure, 382.
Adrenal glands, influence on blood pressure, 192.
Alcohol, toxicity, 463.
ALDRICH, T. B. On feeding young pups the anterior lobe of the pituitary gland, 352.
Anæsthetics antagonized by salts, 1.
Apple, carbohydrates of marc, 258.
Associations in decerebrate frog, 80.

BAYNE-JONES, S. The presence of prothrombin and thromboplastin in the blood platelets, 74.
BENEDICT, F. G., and H. L. HIGGINS. The influence on the respiratory exchange of varying amounts of carbohydrate in the diet, 217.
BENEDICT, F. G., and L. E. EMMES. The influence upon metabolism of non-oxidizable material in the intestinal tract, 197.
Blood, influence of liver on fibrinogen content, 161.
—— leucocytes in fasting, 174.
—— platelets, prothrombin and thromboplastin in, 74.
—— pressure, affected by adrenal glands, 192.
—— —— affected by adrenalin, 382.
—— —— falls on traction of carotid artery, 88.
—— —— in lungs, 233.
Brain, decerebration does not prevent associations, 80.
BROWN, E. D. See SOLLMANN and BROWN, 88.
BURKET, I. R. The influence of adrenalin, modified by salts, on the blood pressure in the cat, 382.
BURNETT, T. C. Some observations on decerebrate frogs with especial reference to the formation of associations, 80.

CALDWELL, G. H. A note on the effects of intravenous injections of thyroid pressure liquid in dogs and cats, 42.
CANNON, W. B. Peristalsis, segmentation, and the myenteric reflex, 114.
CARLSON, A. J. The condition of the digestive tract in parathyroid tetany in cats and dogs, 309.
CARLSON, A. J., J. R. ROOKS, and J. F. MCKIE. Attempts to produce experimental hyperthyroidism in mammals and birds, 129.

DEPRESSOR nerve, action on vasomotor centre, 369.
Diet, carbohydrates influence respiratory exchange, 217.

EMMES, L. E. See BENEDICT and EMMES, 197.
ERLANGER, J. Observations on the physiology of Purkinje tissue, 395.
EYSTER, J. A. E. See MEEK and EYSTER, 271.

FASTING, leucocytes in, 174.
Fat, absorption by salmon stomach, 278.
Food, carbohydrates of apple, 258.
FRENCH, H. E. The comparative toxicity of different animal tissues to animals susceptible to thyroid feeding, 56.
FROTHINGHAM, C., JR., and G. R. MINOT. Normal temperature of rabbits, 430.

GARREY, W. E. Compression of the cardiac nerves of Limulus, and some analogies which apply to the mechanism of heart block, 283.
GARREY, W. E. Effects of the vagi upon heart block and ventricular rate, 451.
GREENE, C. W. On the absorption of fat by the salmon stomach, 278.

HAGAN, H. H., and J. K. ORMOND. Relation of calcium to the cardio-inhibitory function of the vagus, 105.
HAWK, P. B. See HOWE and HAWK, 174.
Heart block, 283.
——, electrical changes during vagus stimulation, 271.
——, extra-systoles caused by stimulation of the Keith-Flack node, 421.
——, nerves, compression in Limulus, 283.
——, Purkinje tissue, 395.
——, relation of sino-auricular node to auricular rhythm, 358.
——, tonus of, 182.
——, vagus inhibition affected by calcium, 105.
——, ventricular rate and heart block affected by vagi, 451.
HIGGINS, H. L. See BENEDICT and HIGGINS, 217.
HOSKINS, R. G., and C. W. MCCLURE. The relation of the adrenal glands to blood pressure, 192.
HOUGH, T. The influence of muscular activity upon the alveolar tensions of oxygen and of carbon dioxid, 18.
HOWE, P. E., and P. B. HAWK. Fasting studies. — IX. On the differential leucocyte count during prolonged fasting, 174.

INTESTINAL tract, non-oxidizable material influences metabolism, 197.
—— ——, peristalsis, segmentation, and the myenteric reflex, 114.

JACOBSON, CLARA. The effects of blood transfusion in parathyroid tetany, 47.

KEITH-FLACK node, 421.

LEE, F. S., and M. LEVINE. The action of ethyl alcohol and water on muscle, 389.
LEVINE, M. See LEE and LEVINE, 389.
LILLIE, R. S. Antagonism between salts and anæsthetics. — II. Decrease by anæsthetics in the rate of toxic action of pure isotonic salt solutions on unfertilized starfish and sea-urchin eggs, 1.
Liver, relation to fibrinogen content of blood, 161.
Lungs, blood pressure in, 233.
LUSSKY, H. O. Further studies of the aceto-nitrile test for thyroid substance in the blood, 63.

MANOMETER for pulse pressure, 242.
MARTIN, E. G. On the relation of ventricular tonus to the causation of the heart beat, 182.
MCCLURE, C. W. See HOSKINS and MCCLURE, 192.
MCGUIGAN, H., and C. L. VON HESS. Glycolysis after pancreatectomy and with the addition of antiseptics, 341.
MCKIE, J. F. See CARLSON, ROOKS, and MCKIE, 129.
MEEK, W. J. Relation of the liver to the fibrinogen content of the blood, 161.
MEEK, W. J., and J. A. E. EYSTER. Electrical changes in the heart during vagus stimulation, 271.
Metabolism, after pancreatectomy, 341.
—— influenced by non-oxidizable material in the intestinal tract, 197.
—— on feeding pituitary gland, 352.
—— with carbohydrate diet, 217.
MINOT, G. R. See FROTHINGHAM, JR., and MINOT, 430.
MOORHOUSE, V. H. K. The relationship of the sino-auricular node to auricular rhythmicity, 358.
Muscle acted on by alcohol and water, 389.
Muscular activity affects oxygen tension, 18.

ORMOND, J. K. See HAGAN and ORMOND, 105.

PANCREATECTOMY, glycolysis, 341.
Peristalsis, segmentation, and the myenteric reflex, 114.
PIKE, F. H. Studies in the physiology of the central nervous system. — II. The effect of repeated injuries to the spinal cord during spinal shock, 436.
PILCHER, J. D. See SOLLMANN and PILCHER, 303, 369.

Pituitary gland influences metabolism, 352.
Pulse pressure manometer, 242.
Purkinje tissue, 305.

RESPIRATION, oxygen tension influenced by muscular activity, 18.
Respiratory exchange, with carbohydrate diet, 217.
ROOKS, J. R. See CARLSON, ROOKS, and MCKIE, 129.

SALTS antagonized by anæsthetics, 1.
SANSUM, W. D. Extra-systoles in the mammalian heart caused by the stimulation of the Keith-Flack node, 421.
SCHNEIDER, E. C. A nutrition investigation on the insoluble carbohydrates or marc of the apple, 258.
Shock, spinal, 436.
SOLLMANN, T., and E. D. BROWN. The blood pressure fall produced by traction on the carotid artery, 88.
SOLLMANN, T., and J. D. PILCHER. Reactions of the vasomotor centre to section and stimulation of the vagus nerves, 303.
SOLLMANN, T., and J. D. PILCHER. The response of the vasomotor centre to depressor stimulation, 369.
Spinal cord, shock, 436.
STOLAND, O. O. The relative toxicity of dog's normal and hypertrophied thyroids to animals susceptible to thyroid feeding, 37.
Stomach absorbs fat, 278.

TEMPERATURE, normal, of rabbits, 430.
Tetany, parathyroid, digestive tract in, 309.
Tetany, parathyroid, effects of blood transfusion, 47.
Thyroid affects comparative toxicity of different animal tissues, 56.
——, condition of digestive tract in parathyroid tetany, 309.
——, experimental hyperthyroidism, 129.
——, pressure liquid, intravenous injection, 42.
——, substance detected in blood by acetonitrile test, 63.
——, toxicity of, 37.
Transfusion of blood, in parathyroid tetany, 47.

VAGUS action on heart block and ventricular rate, 451.
—— —— on vasomotor centre, 303.
——, cardio-inhibitory function of vagus, 105.
—— stimulation, electrical changes in heart, 271.
Vasomotor centre, reaction to vagus section and stimulation, 303.
—— ——, response to depressor stimulation, 369.
VON HESS, C. L. See MCGUIGAN and VON HESS, 341.

WHITNEY, D. D. The relative toxicity of methyl and ethyl alcohols as determined by the rate of reproduction in Hydatina senta, 463.
WIGGERS, C. J. Studies on the pulmonary circulation. — I. The pressure variations in the pulmonary circulation of the dog studied by a new pulse pressure instrument, 233.

The American Physiological Society

## CONTENTS

EXTRASYSTOLES IN THE MAMMALIAN HEART CAUSED BY THE STIMULATION OF THE KEITH-FLACK NODE. *By W. D. Sansum* . . . . . 421

NORMAL TEMPERATURE OF RABBITS. *By Channing Frothingham, Jr., and George R. Minot* . . . . . 430

STUDIES IN THE PHYSIOLOGY OF THE CENTRAL NERVOUS SYSTEM. — II. THE EFFECT OF REPEATED INJURIES TO THE SPINAL CORD DURING SPINAL SHOCK. *By F. H. Pike* . . . . . 436

EFFECTS OF THE VAGI UPON HEART BLOCK AND VENTRICULAR RATE. *By Walter E. Garrey* . . . . . 451

THE RELATIVE TOXICITY OF METHYL AND ETHYL ALCOHOLS AS DETERMINED BY THE RATE OF REPRODUCTION IN HYDATINA SENTA. *By David D. Whitney* . . . . . 463

VOL. XXX. — No. VI.

*Issued September 2, 1912*

BOSTON, U.S.A.

1912

THE AMERICAN JOURNAL OF PHYSIOLOGY is issued monthly. The price of one volume, sent postage free to subscribers in the United States and Canada, is five dollars and fifty cents; to subscribers in other countries, five dollars and seventy-five cents. The price of Volumes One, Two, and Three will be six dollars to domestic subscribers, and six dollars and twenty-five cents to foreign subscribers. All subscriptions are payable in advance.

Subscriptions, manuscript, and all other communications should be sent to THE AMERICAN JOURNAL OF PHYSIOLOGY, Box 127, Back Bay Post Office, Boston, Mass., U.S.A.

Copyright, 1912, by THE UNIVERSITY PRESS.

Printed at The University Press, Cambridge, Mass.

*Entered at the Boston, Mass., Post Office, as second-class mail matter, Feb. 11, 1903.*
